

The NPGO Professional Development Committee is offering a variety of Certification & Certification Champion learning and networking opportunities throughout FY26.

RN Certification Champion Boot Camps

Participate in an interactive workshop designed for local-level Certification Champions! Champions will do an in-depth review of the website and available resources to support their team's professional board certification goals, along with calculating their current certification rate and goal. Champions will leave with tools, knowledge, and confidence to support and inspire certification efforts in their department.

Boot camps are offered as a hybrid event. Registration required.

Certification Champion Networking Events

Join us for an online gathering of Certification Champions across the organization! This is a collaborative space where champions can share what's working well in their areas, exchange ideas, learn from one another, and gather tips and strategies to take back to their teams. The goal is to foster a community of shared learning and support around certification.

Hosted via Zoom. No registration required.

Certification Q&A Sessions – Open to all!

Have questions about becoming certified? Need help with finding the right resources? Drop-in to get your questions answered! This virtual forum is open to anyone interested in the certification or re-certification process. All are welcome to participate!

Hosted via Zoom. No registration required.

Scan or click the QR code for event information and to register or download a calendar planner.
